

bake a loaf of bread from scratch  
use the process as a form of prayer for  
people and that all may be involved in the food system  
even their daily bread!

collect some tree seeds, such as acorns, or buy pea seeds  
plant them into the ground  
as you do, pray a blessing on the land

pray the new IPCC climate  
change report acts as a  
wake-up call to world  
governments

ask God to speak to you, then read Isaiah 61  
several times through slowly  
maybe even aloud, and/or with others

don't analyse what you've read  
just notice what jumps out to you

insistence, spend time praying over that bit  
finish with a prayer of thanks

# OCTOBER

stuff to remember in  
October;

feast! it's Harvest time!  
celebrate God's grace shown in the grace of the earth  
how much undeserved goodness both give,  
however badly we treat them  
be extravagant and generous
